Victor Edem

JUNIOR WEB DEVELOPER

Uyo, Akwa Ibom, Nigeria • 08134623192 • edsonedem2121@gmail.com
Portfolio • GitHub: Vhitepizza • Vhitepizza live demo

PROFESSIONAL SUMMARY

Entry-level web developer focused on building responsive, user-friendly web experiences with HTML, CSS, and JavaScript. Has practical project experience creating deployed web applications and integrating services such as Firebase Authentication and Firestore, payment checkout, email workflows, and location features. Currently strengthening JavaScript and full-stack development skills, with a focus on clean interfaces, practical problem-solving, and continuous learning.

TECHNICAL SKILLS

Core	HTML5, CSS3, responsive layouts, JavaScript fundamentals, DOM manipulation
Frameworks & tools	React, Vite, Tailwind CSS, Node.js, Express (project-level experience)
Services	Firebase Authentication, Cloud Firestore, Paystack, Brevo, Geoapify; web push and location features in project work
Workflow	Git/GitHub, VS Code, deployment with Vercel and Netlify, debugging and responsive testing

SELECTED PROJECTS

Vhitepizza — Pizza ordering and delivery demo

vhitepizz.vercel.app · Source code

Built and deployed a pizza-ordering web application with a React/Vite frontend and Node/Express API. Project integrations include Firebase authentication and Firestore, Paystack checkout, Brevo email workflows, Geoapify location features, and customer/staff chat.

Vhitefund — Crowdfunding web application

vhitefunds.netlify.app · Source code

Created a crowdfunding interface using HTML, CSS, JavaScript, and Firebase. Implemented authentication-related flows, password reset, Firestore-backed data, donation modal interactions, project detail views, and a theme toggle.

VhiteMaps — Mapping and location-sharing concept

vhitemap.vercel.app · Source code

Developed a mapping project concept focused on live location sharing, directions, and saving routes/trails with Firebase-backed data.

Personal portfolio

victor-edem.netlify.app

Designed a personal portfolio to present web projects, technical interests, and development work.

EDUCATION & CONTINUOUS LEARNING

Web development learning — W3Schools, March 2023 (as listed in the supplied CV). Continuing independent practice in JavaScript, frontend development, APIs, and full-stack application building.

ADDITIONAL STRENGTHS

Problem-solving · Attention to detail · Collaboration · Self-directed learning · User-focused design
